Not Ready to Embark on a Master's Degree? Consider a Graduate Certificate!

Open to educators with bachelor's or master's degrees, a graduate certificate is a smart and efficient way to advance your career by acquiring skills and expertise in a specific specialty area.

A graduate certificate requires completion of 12 to 15 graduate credits within a 12 to 18-month time frame. The good news is that coursework completed for a certificate typically applies to a master's degree program at the same institution, should you decide to pursue that later.

Two NEA Academy online master's degree program partners, Walden University and UMassOnline, together offer more than 15 graduate certificates in such areas as: Instructional Design and Technology, Curriculum and Instruction, Organizational Leadership, Educational Policy, and more.
